Help Me Now Walk-in Service

Help Me Now (HMN) is a walk-in service that is intended to transform the face-to-face support that is not being served through the UMMS and UMHS at the present time. Help Me Now provides support for on-demand products and services from a variety of locations distributed across the UMMS and UMHS complex. Each location can perform a standard set of services, but also provides customizable local experiences based on different user needs.
